

THEATER ART SYSTEMS™

Motorized Art System with Vertical Masking

THEATER ART-SYSTEMS VERTICAL MASKING™ Electronic House Product-of-the-Year, lets viewers transform a work of art into a front projection screen. Inside a custom frame, Giclée canvas artwork of your choice ascends or descends with the touch of a button. This unique product's synchronized masking lowers material that covers portions of the screen to alter its shape to accommodate 16:9 or 2.35:1.

FEATURES

- Vertical masking system for anamorphic widescreen lens projector
- Native 16:9 (HDTV) format vertically masks to 2.35:1 (widescreen) format
- Large selection of Giclée fine art prints, frames, and liners (www.vutec.com)
- Client's custom art or photographs can be duplicated with authorized release
- Drawings are provided for all units (requires sign off)
- All orders must be submitted using Vutec's TAS order form
- IR control system included
- IR can be substituted for a Low Voltage control kit or 12V DC Auto Relay
- All units ship assembled in a wooden crate
- 5 year warranty
