

# RAL COLOR HOUSINGS

Vutec's custom **RAL COLOR HOUSINGS** exemplify leading Powder Coating Technology in vibrant RAL colors. Vutec's internal manufacturing facility offers a dedicated powder coating production line with multiple color applications. For sample RAL colors, please contact your Vutec representative to receive a RAL Color Deck or visit any major paint supplier i.e. Sherwin-Williams, etc. to provide the RAL color of your choice.

**Upon selecting the RAL Color for your custom Vutec housing, please provide your Vutec representative with the 4 digit RAL number for processing.**

For more information, please call 954-545-9000 or email [sales@vutec.com](mailto:sales@vutec.com).

## ABOUT RAL

RAL (Reichsausschuß für Lieferbedingungen und Gütesicherung - the German Imperial Commission for Delivery Terms and Quality Assurance) is a series of color matching systems developed in 1927, to create a common language of color. The RAL system aims to subtract any confusion about the name or shade of a certain color. This uniform four digit numbering system is primarily used for metal finishes and powder coatings. Originally, the RAL collection contained 40 colors, this has grown today into 1,898 named colors. RAL color standards have been accepted worldwide.

*Note: This image is to be used only as a reference for the range of our RAL colors.  
For accurate color refer please contact a vutec representative for more information.*
